2010 Census

The countdown to Census Day is underway! With one of the shortest questionnaires in history, the 2010 Census will take only about 10 minutes for the average household to complete.

The census population totals determine which states gain or lose representation in Congress. It also determines the amount of state and federal funding communities receive over the course of the decade. 2010 Census data will directly affect how more than \$4 trillion is allocated to local, state and tribal governments over the next 10 years. In order for this funding allocation to be accomplished fairly and accurately, every person living in the United States must be counted on April 1, 2010. The facts gathered in the census also help shape decisions for the rest of the decade about public health, neighborhood improvements, transportation, education, senior services and much more.

All responses are used for statistical purposes only, and all are strictly confidential. The U.S. Census Bureau does not ask about the legal status of respondents in any of its surveys and census programs. Language guides in 59 languages, including Ukrainian, will be available on request.

For more in information, visit the 2010 Census Web site at <http://www.2010census.gov>

Sincere Sympathies

Our most sincere sympathies are extended to the family and friends of + ANNA STEK who was recently called to her eternal reward.

Temporary Precautions for Flu Season

The kissing of the cross after the celebration of the Divine Services during a Myrovanya is suspended but anointing of the forehead is allowed.

Цілування хреста на відправі Божественної літургії під час похорону, чи під час Мировання, тимчасово відмінюється, але помазання елєєм дозволяється.

A Sunday School teacher began her lesson with a question,

"Boys and girls, what do we know about God?"

A hand shot up in the air. "He is an artist!" said the kindergarten boy.

"Really? How do you know?" the teacher asked.

"You know -

Our Father, who does art in Heaven... "
