School Window Renovation Project

Work has begun on a major project very necessary to the school. The original windows are in the process of being replaced with new, energy efficient windows. Most of the windows will be replaced. The new windows will bring energy efficiency as well as an updated look to the outside of the school. We will save on the high energy costs of heating and cooling the school.

A very generous donation from John Yavorsky, has made it possible to enter into this project. Please consider making a special donation to help cover the many costs of upkeep and maintenance that come with the blessing of having a parish school. If anyone is interested in sponsoring a window, please contact Fr. Roman.
